

# KAYAKING

Ever since we released our first kayak in 2000, we've been focusing on their design, performance, quality, fixtures and fittings, to ensure that you get maximum fun out on the water. From the simplest Sit-On-Top to the easy to transport light-weight inflatables, our 2018 collection will satisfy all your expectations with innovative, aesthetic, stable kayaks delivering excellent sensations and satisfaction. They will quickly become the must have companions of all your family holidays. Made in our factory in France using the Twin Sheet thermoformed construction technique we have developed over the last 40 years, BIC Sport rigid kayaks also pay consideration to environmental issues: the technique has a low energy requirement, is non-polluting, and allows us to re-cycle and re-use all the off-cuts the production runs generate. And the entire kayak is re-cyclable at the end of its life. To help you make the best choice, the kayak ranges are classified and named according to the performance desired/intended. « Beach », « Sport », « Performance » and « Fishing » are labels that will guide you as you make your selection. So whether its serious exploring, having fun at the beach, hooking big fish, or taking them travelling, we hope you'll enjoy the whole BIC Sport kayak range out on the water !

# SIT-ON-TOP BEACH

## Sit-On-Top for Everyone

Stable, designed to be simple and affordable, the BEACH series are the gateway kayaks for our Sit-On-Top range, the easiest way to get out and have fun on the water while you're at the beach. They are made to BIC Sport's usual high standards, and their deck and cockpit design make them easy to use and very well suited to family and group activities. The Trinidad and Kalao models can be fitted with a small motor.

### KEY FEATURES

- Versatile kayaks with great stability thanks to its wide, flat hull design.
- Minimal water draught for exploring everywhere, even in the shallowest water.
- Wide rear storage area with integral elasticated straps for safely carrying equipment (Trinidad and Kalao).
- Can be adapted to fit an electric motor to extend exploration range.
- Stacks easily to help reduce storage space requirements for clubs (Trinidad and Kalao).

# SIT-ON-TOP SPORT

## Easy Glider

The kayaks in the SPORT range are already best sellers. The Bilbao and Tobago kayaks have helped create the BIC reputation in the kayak market with their combination of innovation in design, quality fittings, and a near-perfect stability/performance ratio. Compact and superbly finished, they are excellent kayaks giving great glide and superb handling for your most ambitious excursions and outings.

### KEY FEATURES

- *Highly versatile kayaks equally well adapted to beginners and experts.*
- *Super-safe and stable THD hull design (similar to a tri-maran) with fine profiled tips for excellent water penetration and glide.*
- *Wide rear storage area with integral elasticated straps for carrying more equipment.*
- *Removable rear bumper/protector with integral roller for easy transportation, even solo.*

# SIT-ON-TOP PERFORMANCE

## Further, Faster

Longer than most of the kayaks of the other series, the three models in the PERFORMANCE series are aimed at a more sporty market, offering a wider range of paddling styles and options, but still easy to use. These three kayaks offer a fistful of innovations.

### KEY FEATURES

- Exploration/touring kayak, with high performance and paddle comfort
- Stable THD (similar to a trimaran ) hull design, specially shaped for optimum hydro-dynamics. (Borneo and Java).
- Very wide rear storage area with cross elasticated straps for carrying maximum equipment.
- Integral rollers for easy solo transportation, removable for maximum paddle speed. (Borneo and Java).
- Adjustable foot rests to suit all sizes of paddler and paddle positions (Java and Scapa).
- Replaceable, removable rear protector and forward stem reinforcements help extend the life of the kayak (Borneo and Java).

# FISHING

## Fishing in Total Freedom

The kayaks in the Fishing range enable you to get quickly and easily to the best spots, and to glide through shallows and rocky areas totally risk-free. Single or double-seaters, they set themselves apart from the rest with their beige or green camouflage colouring as well as by their angling-specific fittings (integral rod rests and racks, storage lockers...) giving you the freedom of hassle-free angling action.

### KEY FEATURES

- Forward and rear watertight hatches (round and oval respectively) for safe storage of fishing equipment.
- Double rod rack at rear.
- Lateral elasticated paddle leash.
- Wide rear storage area with integral elasticated straps for carrying more equipment.

Fishing range kayaks are fitted with rod racks and watertight hatches for carrying extra equipment.

# INFLATABLE SPORT

## GENERATION 100% HIGH PRESSURE

The new YAKKAir Full HP 1 and 2 reveal significant advances in the design of inflatable kayaks, with a panelled structure using the new Drop Stitch technology. These high-pressure inflated, rock-solid panels, assembled around pre-formed bow and stern elements, combine to create an ultra-rigid, high-performance kayak. A new revolution in inflatables....

## YAKKAir Full HP1

Length	11.4"   3.50 m
Width	33.5"   0.85 m
Weight	±28 lbs   ±13 kg
Max load	320 lbs   145 kg

Weight	±34 lbs   ±15.5 kg
Max load	463 lbs   210 kg
Capacity	2 adults + 1 child*
Technology	Full inflatable high-pressure
Ref	101499

BIC Kayaks sent a prototype of its brand new YAKKAir Full HP 1 to the AKTA expedition team so they could test it under extreme Arctic conditions.

### KEY FEATURES

- Panelled, Drop Stitch high-pressure structure (same as our SUP range) = strength, stiffness and light weight.
- Manufactured with a fusion of high performance cloths and glues = powerful adhesion, durability.
- Profiled deck (with deep V moulded tip sections front and rear) and steep-angled run-offs = excellent glide, high performance, lateral stability, directional control.
- Versatile design concept = great for all kinds of kayaking styles (and even SUP !).
- Totally dual performance (FULL HP2) : identical solo and duo paddle comfort.
- Huge capacity for carrying equipment in the cockpit (plus extra, elasticated carry nets).
- Fast, easy inflation in less than 8 minutes thanks to its high pressure pump.
- H3 high-pressure valves = reliable, totally air-tight, replaceable.
- Self-empty bung = fast, easy emptying after use.
- Front deflector to minimise water entry in heavy chop.

# INFLATABLE PERFORMANCE

## Touring / Sea kayak

The principle behind these highly innovative inflatables lies in their use of multiple materials to help reduce weight, plus the use of a keel and bottom section inflated to high pressure to give the hull a superbly efficient V shape. Result : the Nomad HP are light weight and high performance boats with the advantage of pack-down and storage into a compact carry bag. This means you can get to further flung and less accessible spots much more easily.

# BEACH

## Beach Sports

The inflatable model in the inflatable Beach range is designed for leisure paddling close to the beach or on lakes and rivers. Aimed at beginners and occasional paddlers, it is stable, sturdy and light weight and is well fitted for and suited to family fun. It packs down into a carry bag but can be unpacked and inflated in minutes.

## NOMAD HP1

Length	14'5.2"   4.40m

BIC Kayak's catalogue offers a wide range of kayak paddles, to give the best choice possible for every kayak pursuit and paddling style. Mini-ranges called «Beach» (leisure kayaking), «Sport» (all-round and sport kayak), «Sport Soft Grip» (integral foam grips), and «Adventure» (top quality materials, long distance paddling) will help guide you to the perfect paddle for you. The blades of our Sport and Adventure paddles have been custom designed to ensure maximum paddle comfort. The central rib stiffens the whole blade to help spread your effort and the water flow as efficiently as possible during the submerged phase, making them exceptionally easy on your hands, comfortable to use, and delivering top performance.

	Asymmetric blades for mainly fun kayaking and your first paddling adventures. Easy to use and not too physical with very little water runoff. Black anodized shaft, polypropylene blade.				Asymmetric blades for long distance courses and touring paddling. Moderate power, comfort in windy and choppy conditions. Black anodized shaft, fitted with anti - drip shields.			Asymmetric blades for long distance courses and touring paddling. Moderate power, comfort in windy and choppy conditions. Aluminium shaft covered with a soft and comfortable grip. Fitted with anti - drip shields.		Asymmetric blades for the more advanced kayakers. Very stable, light weight, powerful, it's ideal for taking you to another level, an excellent power tool at a great price for the more demanding enthusiast.		

## BIC KAYAKS

### BACKRESTS

BIC Sport's backrests improve the paddle comfort of BIC Sport kayak seats, and are absolutely indispensable for long distance paddling. Aside from the improved comfort, they also help increase your paddle power, keeping the back well positioned in the lumbar region. The Ergonomic backrest (see photo) is the best example of our expertise. Inspired by the windsurf harness design, it's a rigid, moulded, ergonomic backrest giving exceptional back support, to help deliver maximum power with minimum fatigue. There's nothing else that can match it on the kayak market.

#### Power

Foam covered back rest, comfort and support for your back, easy adjustment.

#### Standard

Foam covered seat and back rest, comfort and support for your back, easy adjustment.

#### De luxe Fishing

Thick, ergonomic foam cushioning, rear pocket; 2 integral rod holders. Soft neoprene comfort.

#### Ergonomic

Backrest aimed for maximum comfort. Ultra-rigid and ergonomic, it gives superb back support for less fatigue and more paddling power. Material: pre-formed, articulated, thermoformed foam with a rigid inner plate.
