ONE DESIGN TST

Discover, learn, progress skills, and share with friends. Blaze your trial or find your tribe.

Here at TAHE, we dream of endless summers filled with fun and adventures with family and friends, creating memories that last forever. Based in France for more than forty years, we've been able to make this happen, sharing our passion for watersports by manufacturing a complete range of reliable and long-lasting products to guarantee endless fun.

We are TAHE, and we make #EndlessPlayTime on the water.

## ACCESSIBILITY

Our products are designed to deliver the easiest and most affordable way to get on the water and have fun, whether you're a total beginner or more experienced and looking to progress.

## A SHARED PASSION

Our passion is a source of happiness and brings positivity to our lives. That's the reason why we invest so much energy to ensure that new and future generations can discover the world of water sports thanks to our One Design classes, O'PEN SKIFF, T293, and TWF 130.

## DURABILITY

As a major player in the board and water sports industry, we are fully aware of our responsibility to guarantee that our products will deliver endless fun on the water for all our customers as well as the sustainable future we all hope for. That's why all our products are manufactured to be as long-lasting as possible. All our manufacturing off-cuts are recycled, and more than half of all our products are recyclable at the end of their life.

## MADE IN FRANCE

We are proud to be the only major manufacturer of board and water sports equipment operating in Europe. At our production facility in France, we conceive and construct the vast majority of our products. Working together as a team, we use our unique experience and know-how to distribute our products in more than 90 countries.

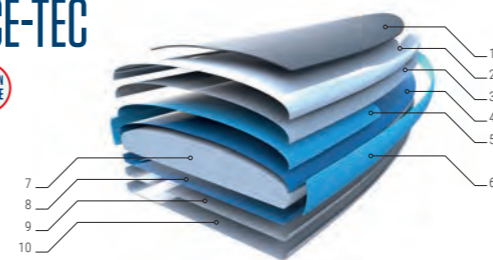

# 40 Years of Molding Expertise

Take Outdoors France is the proud owner of an industrial tool that is unique in the world, capable of three different manufacturing techniques: thermoforming, thermoforming around a polystyrene core, and blow moulding/blown extrusion.

Take Outdoors France is the only manufacturer in the world to have these three manufacturing techniques available on one production site. This enables us to produce six different product types with consistency, quality and faithfulness to the original design, every time. Take Outdoors France also makes its own polystyrene and polyethylene slabs at the same site.

## ACE-TEC

1- Deck Pad. / 2&10- Thermoformed plastic skin (ASA). / 3- 50g/m<sup>2</sup> Fiberglass wrap. / 4&8- 200g/m<sup>2</sup> Woven Fiberglass. / 5- 200g/m<sup>2</sup> Woven Fiberglass Reinforcement Patch in standing area. / 6- 200g/m<sup>2</sup> Woven Fiberglass Rail Reinforcement. / 7- Molded, Watertight EPS Foam Core. / 9- 50g/m<sup>2</sup> Fiberglass wrap.

## TOUGH-TEC

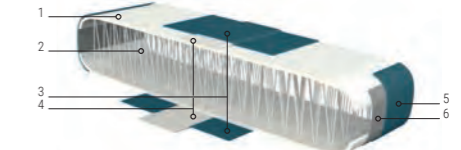

1- Deck pad. / 2- Rugged Polyethylene Outer Shell. / 3- Molded, Watertight EPS Foam Core. / 4- Polyethylene outer shell.

## TST

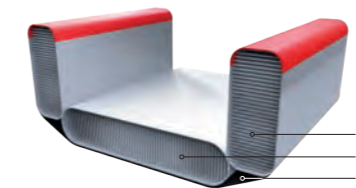

Polyethylene anti-UV treated, highly resistant

## SST INFLATABLE SUP-YAK (Support Stringer Technology)

1- Single PVC layer / 2- Nylon Drop-Stitch core / 3- PVC stringer cover / 4- HDPE stringer / 5- Outer PVC layer rail / 6- Inner PVC layer rail

## FULL HP INFLATABLE KAYAKS

1- Side air chambers made of Drop Stitch material. / 2- Bottom floor made of Drop Stitch material. / 3- Reinforced PVC skin on the hull.

## HYBRID INFLATABLE KAYAKS

1- Nylon skin with highly resistant PU coating. / 2- PVC bladder. / 3- Bottom floor made of Drop Stitch material.

# Eco Friendly Manufacturing

ACE-TEC, TOUGH-TEC, and SKIN-TEC products are proudly produced in Vannes (Brittany), France, at the forefront of eco-minded manufacturing.

ACE-TEC and TOUGH-TEC utilize thermo-formed skins, watertight EPS cores, and externally molded inserts. Both technologies use low energy consumption, no pollution, and resource conservation. ACE-TEC cut-off waste during production is recycled back into the process. TOUGH-TEC products can be entirely recycled at the end of their life cycle.

SKIN-TEC is a high-density cellular foam fusion formed and molded in France. The foam slabs come out of the mold in a fully-finished shape, generating no waste during production. Durable, lightweight, water-resistant, and recyclable.

## ENVIRONMENTALLY FRIENDLY MANUFACTURING

### LOW ENERGY CONSUMPTION

- Short production cycle
- Short Infra-red heating cycle
- Low electricity consumption

### NO POLLUTION

- Closed circuit cooling of the mold
- No solvents

### RESSOURCE CONSERVATION

- Rejection rate (less than 2.5/1000)
- Surplus material systematically recycled
- A capacity per mould 5 times greater than standart techniques

### RECYCLABLE PART

- TOUGH-TEC and SKIN-TEC products can be entirely recycled at the end of their life cycle.

# STAND UP PADDLE

There's nothing quite like the sensation of "walking on water!" Stand up paddling opens a world of water sport adventures with family and friends. This an activity for everyone who wants to start learning watersports as easily as possible. BREEZE products are well-suited to this environment with high-performance, super-responsive, lightweight designs and technology to help you progress fast and embark on more ambitious adventures. Discover also our hybrid stand-up paddles to make the most of your time on the water.

# SUP-YAK

A stable and easy to use 2-in-1 inflatable or rigid paddle board package is the perfect choice for any water lover. If you're looking for a stable, durable and versatile stand up paddle board/kayak experience, one thing is certain - both offer an unparalleled paddling experience that will have you coming back for more!  
**100% Kayak, 100% Paddle board, 200% FUN!**

## NEW THIS SEASON SUP-YAK

The 11'6" BEACH SUP-YAK is a stable, lightweight, and easy-to-use inflatable paddle board package for 1-person use or 2-person kayak use with the available kayak kit. With a 450lb/200kg max load there's plenty of extra capacity for kids, pets and gear! The innovative design combines comfort and convenience for endless playtime on the water with family and friends whether standing, seated or lounging around. New more up-to-date look.

### KEY FEATURES:

- **LIGHTWEIGHT AND PORTABLE**  
 Weighs just 25 pounds/11.4kg, less than half of a similarly sized rigid kayak
- **STABLE & STURDY SHAPE**  
 Wide, stable stern that smoothly transitions to a narrower bow for improved glide
- **REMOVABLE 9" CENTER FIN**  
 With two permanently installed smaller fins
- **DAISY CHAIN ATTACHMENT SYSTEM**  
 For ultimate versatility and customization
- **BOW AND STERN BUNGEE RIGGING**  
 To customize bungee location for your needs

**750 €**

- **BOW, CENTER AND STERN CARRY HANDLES**  
 For easy transport and for ease of re-boarding after swimming
- **DRY RIDE 6" THICK MILITARY GRADE DROP-STITCH CONSTRUCTION**  
 Durable, rigid and buoyant

# SURF

**BEST-SELLER**

## COMET

### The recyclable surfboard

Thanks to its Tough-Tec construction, the COMET board gives you unbeatable and unbreakable reliability and performance for learning and progressing your wave riding. Its polyethylene skin and EPS foam body are recyclable and Made In France.

The COMET is shaped by the knowledge of Jon Henderson. It's a reliable and forgiving ride in a wide range of conditions, fast and very manoeuvrable. This board has extra volume in the centre and lowered rails to give increased stability, optimum glide, and excellent attack in the waves.

Tough-Tec boards are Made-In-France, generate zero waste during their production and are recyclable at the end of their lives. They're ideal for riders in progression, and for any surfer concerned about minimising their environmental impact with no compromise on performance.

#### KEY FEATURES:

- SUPER-STRONG EXTERNAL TOUGH-TEC SKIN: Virtually unbreakable
- LIGHT-WEIGHT, WATER-RESISTANT EPS FOAM BODY: Zero water infiltration in the event of knocks, cuts or bumps
- MADE IN FRANCE AND RECYCLABLE: High-performance and long-lasting boards
- 3X STELLAR FINS (fins supplied): Made from recycled fishing nets and fully recyclable. Compatible with the FCS fin boxes.
- PRODUCTION MOULDED FIN BOX AND LEASH PLUG: For maximum water-tightness and strength

### STELLAR TRI FINS

Eco-designed, the STELLAR are the first fins produced in France, in a local distribution network, from recycled fishing nets. They are recyclable. The STELLAR are reliable, high-performance fins. With a more prominent rake and a wider base, they are forgiving, stable, and have a good snap in the wave. These STELLAR fins are compatible with the FCS 1 and FCS 2 fin boxes (adapters not included).

# WINDSURF

Windsurfing is the fastest, most exciting board sport on the water!  
Learn the basics on a TAHE BEACH board, enjoy the sensation of flying on a TECHNO 130 Foil board or get into racing on the TECHNO 293 One Design.  
Regardless of your skill level or type of board, it's all about endless playtime on the water.

**NEW THIS SEASON**

## TECHNO MAX

The classic fun board for all wind conditions

### New design and seamless technology

The TECHNO MAX is the ideal board for improving in funboarding, it gives you great sailing speeds in moderate to strong winds. Fast board, easy to jibe, the perfect combination of ingredients to give you unlimited freeride fun, with some great acceleration sensations.

Built in TAHE's Made in France exclusive Ace-Tec construction technology, the TECHNO MAX boards are coming with updated graphic designs and innovative seamless technology that will allow you to get an earlier planing.

The TECHNO range in many ways wrote the modern history of funboarding, with easy-riding, highly versatile boards that are valued for their performance, their strength, their light weight, and the quality of outfitting. It's the freeride windsurfing board everyone needs!

### KEY FEATURES:

- NEW SEAMLESS TECHNOLOGY  
For easy planing
- ALL-ROUND BOARDS, FAST AND EASY  
For free ride windsurfing
- LIGHT DOUBLE CONCAVE SHAPES, LARGE WIDTH  
For great planing ability
- ROUND RAILS ON THE FRONT

# KAYAK

Kayaking is easy to learn and the perfect way to explore beyond the shore and stay fit. Whether you paddle on the sea, in a lake or down the river, TAHE can take you where you want to go with a wide range of rigid and inflatable models to suit all levels and styles.

**NEW THIS SEASON**

## BORA Rigid on Water, Compact on Land

With its sleek shape and excellent glide, the Bora is perfect for flat to mildly choppy waters, ensuring smooth, enjoyable rides every time. Its advanced hull design, featuring a pronounced bow and keel, provides unmatched directional stability, making it easy to stay on course.

Built with cutting-edge Drop stitch high-pressure floor structure and panelled PVC tarpaulin side chambers, the Bora combines durability with flexibility. Its unique hybrid structure offers the stability of a hard-shell kayak while maintaining the lightweight, foldable convenience of an inflatable. No rigid parts mean the Bora packs down effortlessly into its carry bag, making transport and storage a breeze. Compact, versatile, and ready for adventure, the Bora inflatable kayak is your go-to choice for unforgettable trips on the sea, rivers, or lakes. Wherever your next journey takes you, the Bora will make it better!

### KEY FEATURES:

- REFINED LINES  
For smooth gliding
- STREAMLINED HULL  
Shaped bow and keel for directional stability
- DROPSTICH/HIGH-PRESSURE HYBRID STRUCTURE  
With low-pressure PVC side pontoons
- NO RIGID PARTS  
Easy storage in carry bag
- DAISY CHAIN ADJUSTMENT SYSTEM  
To adjust seats and footrests
- RAISED SEATS  
For improved rowing comfort

# SPORTYAK

## SPORTYAK 245

Rowing, sculling or motoring, in port or at anchor, the SPORTYAK 245 is an ideal way to get to your boat. On vacation it becomes a perfect rowboat that the whole family to enjoy and is ideal for kids to experience the joy of 'messaging about in boats'. The 245 is lightweight for its size and features a super stable hull design for added comfort and ease of use. The innovative wheel transport systems makes transport a breeze.

Quality accessories include an adjustable oar bench, two oarlock location options, multiple carrying handles, a self-draining plug to be able to leave your tender at anchor and deck lines for added safety.

The SPORTYAK 245 is a benchmark in the dinghy/ tender market and recyclable at the end of its useful life.

**NEW THIS SEASON**

## SPORTYAK 210

Small size, maxi space!

New lines, new design: the SPORTYAK 210 is the perfect blend of our two best-sellers, the SPORTYAK 213 and 245. We have taken the best of both models to create an all-new tender that is more practical & compact without sacrificing the space onboard. The SPORTYAK 210 features an integrated wheel system and maximized interior volume. It is more compact than the 213, with around 80 liters more interior space. Recyclable at the end of their life, Sportyaks have been a benchmark in the world of yachting for decades. The 210 is the modernized version.

The SPORTYAK 210 is more stable, stronger, and lighter than traditional dinghies thanks to its catamaran hull and its polyethylene construction. Whether you are rowing, sculling, or motoring, the SPORTYAK 210 provides a wide range of uses in all situations and is easy to stow thanks to its integrated wheels. Available in two colors.

## ELECTRIC POD 600

Thinking of upgrading your SPORTYAK 245? Discover the ELECTRIC POD 600. Introducing the E-POD 600, the ultimate electric engine designed to elevate your boating and sailing experience. This powerful, whisper-quiet motor propels your boat or dinghy without noise or emissions, ensuring a smooth, eco-friendly ride. It's incredibly light, easily portable, and installs in seconds with a single movement onto your boat's tiller.

The E-POD 600 is controlled via a waterproof, wrist-mounted remote, featuring 3 forward speeds, reverse mode, and an easy-to-read battery level indicator. With its quick-attach interfaces, you can effortlessly mount the motor onto the SPORTYAK 245, creating the ultimate duo for seamless trips between your boat and the shore.
